Professional Summary

PHP/Laravel Developer with 3+ years of experience building and maintaining web applications, eCommerce integrations, CRM systems, and custom CMS solutions. Skilled in Laravel, PHP, REST and GraphQL APIs, Angular, MySQL, MongoDB, Redis, and WordPress. Experienced in backend optimization, shipment and sales-channel workflows, responsive frontend integration, and AI-assisted development using Cursor and VS Code.

Technical Skills

- **Languages & Backend:** PHP, JavaScript, Laravel, AJAX, REST APIs, GraphQL APIs.
- **Frontend:** Angular, HTML5, CSS3, Bootstrap, Tailwind CSS.
- **Databases:** MySQL, MongoDB, Redis, Supabase.
- **CMS & Platforms:** WordPress, Elementor, eCommerce integrations, CRM applications.
- **Tools & Hosting:** Git, GitHub, VS Code, Cursor AI, Hostinger, cPanel, hPanel, AWS EC2.

Professional Experience

PHP Laravel Developer

Jun 2025 - Present

eBrandz LLP

- Optimized existing PHP/Laravel modules using AI-assisted development tools to improve code quality, maintainability, and delivery speed.
- Integrated REST and GraphQL APIs for eCommerce sales channels and shipment-management workflows.
- Built Angular frontend integrations with Laravel APIs and troubleshoot end-to-end issues across UI, backend, and database layers.

Full-Stack Developer

Jan 2024 - Jun 2025

Webtrixx Ventures LLP

- Developed responsive web applications using HTML, CSS, JavaScript, PHP, and Laravel.
- Built and customized WordPress, eCommerce, CRM, and portfolio websites using Elementor and database-level modifications.
- Developed WebView applications and delivered client projects from implementation through deployment.

PHP Developer

May 2023 - Jan 2024

CareComp Solutions

- Developed frontend and backend modules for a PHP-based CRM application supporting business workflows.
- Implemented and maintained MySQL data handling for reliable storage, retrieval, and application operations.
- Improved application performance, security, and maintainability through backend fixes and optimization.

Selected Projects

VK SmartTech [[vk.runexe.tech](#)] | Laravel, Blade, MySQL, Banking APIs

- Built Hong Kong company-registration and business-account onboarding with customer forms, validation, service selection, and backend processing.
- Integrated banking and financial APIs for incorporation, account-opening assistance, and related financial-service workflows.

Victoria Recreation Club (VRC) [[Website](#)] | Laravel, Blade, REST API, MySQL, WebView

- Developed member login, portal, profile/club-service access, and an online merchandise shop using Laravel and Blade.
- Built the admin CMS, member management, in-app/email notifications, REST workflows, and a WebView app for the member portal.

Unisellergy [[unisellergy.in](#)] | Laravel, Angular, Redis, MongoDB, MySQL, Third-Party APIs

- Built Laravel APIs and Angular integrations for multi-channel order, inventory, catalog, and shipment management.
- Integrated marketplace and shipping APIs with REST/GraphQL workflows, using MySQL, MongoDB, and Redis for synchronization and caching.

Education

Master of Computer Applications (MCA)

Jul 2024

Chandigarh University, Punjab

B.Sc. in Information Technology

Apr 2023

N.E.S. Ratnam College, Mumbai University
